The Bill and Penny Allyn Innovation Center will showcase the social relevance and collaborative nature of engineering and computer science in the modern world, crucial for broadening participation. Prominently situated at the south entrance to Link Hall, it will visually enhance our connection to SU’s vibrant campus and house student services.

A brilliant window into the College
Serving as the hub for student services, the Innovation Center will highlight opportunities for student support from initial recruitment, advising, course support, research and internship opportunities, to career planning and much more. Engaging more students in support services enables them to graduate on time, with the experiences needed to begin their careers and elevate their impact on society.

By modernizing our space and technology we will catalyze interdisciplinary collaborative learning, creativity, and innovation—all signature characteristics of our discipline.

Student-inspired
Concepts for the Innovation Center were designed during the Spring 2017 semester by competing, interdisciplinary teams of students from the College of Engineering and Computer Science and the School of Architecture. Each team was guided by faculty and was required to apply standard Building Information Modeling techniques, sustainable building requirements, Health and Safety considerations and ADA regulations.

Continued on page two...
The winning concept will influence the final design of the building. We aspire to begin construction in June 2018 as part of the 50th anniversary of Link Hall’s original groundbreaking.

The Bill and Penny Allyn Innovation Center will stand as a testament to the ingenuity of Syracuse University students, and their collaborative spirit.

Join us!
As engineers and computer scientists, we know that what can be done through collaboration far exceeds what can be done alone. The College urgently seeks financial support to advance this transformative project through two $2.5 million phases. With your help, we can reach our $5 million goal.

Please support the Innovation Center!
$50K: Commitment by June 2018 secures prominent recognition in the Innovation Center.

For more information contact an advancement representative, listed below, or visit ecs.syr.edu/transformation.

To learn more about the college’s comprehensive Transforming Our Future plan, visit ecs.syr.edu/transformation.

Your commitment of $50,000 or more by June 2018 will secure your place in the College’s TRANSFORMATION FOUNDERS CIRCLE and prominent recognition in the Bill and Penny Allyn Innovation Center.
