To elevate our research impact, the College must recruit, attract, and retain graduate students, regardless of financial limitations. Graduate Fellowships support the next generation of innovators, scholars, and teachers whose ideas can change the world.

**Graduate Fellowships**

$100,000 Gift or Above

These young scholars constantly push their disciplines in new directions, as well as mentor and teach undergraduates. Graduate Fellows also play key roles in retaining top faculty and recruiting top students to the College’s graduate programs. Support for outstanding graduate or postgraduate students helps SU fulfill its goal of becoming a major research institution. Your gift will help faculty recruit some of the best students in the country. The fellowship will be used to offset the cost of tuition, in whole or in part.

**Scott Constable G ’14**

Constable is the current recipient of the Wilbur R. LePage Graduate Fellowship fund that supports doctoral students in the Department of Electrical Engineering and Computer Science.

Constable works in the Systems Assurance Lab, a part of the Cybersecurity Research Group.

Constable received his master’s degree at SU in 2014, earning the College’s “Outstanding Graduate Student in Computer Science Award.”

**How Endowments Work**

An endowment is one whose principal (or original gift) must be maintained in perpetuity by the University, generating income for a donor-specified purpose. The principal, or corpus, of an endowment cannot be spent.

Your commitment of $50,000 or more by June 2018 will secure your place in the College’s TRANSFORMATION FOUNDERS CIRCLE and prominent recognition in the Bill and Penny Allyn Innovation Center.
